

# EDDYSUN™

## SMART-301

### Intelligent portable eddy current tester

#### Main Characteristics of the equipment

- Frequency: 630Hz ~ 5.5MHz ( can be adjusted continuously ) ;
- Phase: 360° ( Step by  $\pm 1^\circ$  ) ;
- Special function of testing flaws;
- Gain: 0~48 dB ( Step by 0.5 dB ) ;
- Automatically setting the PWL of the alarm;
- Display the impedance plane;
- Communication port: USB port (can connect to the PC);
- Battery in-built: Lithium Battery 7.4V, 3500MAH;
- Power supply input: DC 8.5~12V;
- External dimension: 180×115×40mm;
- Automatically display the calendar and time;
- Operating software (Chinese/English).
